## People's Educational And Cultural Exchange (PEACE)

People's Educational And Cultural Exchange (PEACE) is a social educational organization authorized by the Board of Education of Taito Ward in Tokyo.

The aims of PEACE are to promote international understanding and intercultural communication through the medium of English. PEACE brings together people from all over the world for intercultural workshops, social events and interpersonal exchanges.

We believe that attempting to gain a better appreciation of the cultures and customs of different countries would contribute to world peace. If you have any questions about PEACE or its events, please feel free to email us at [peace.peace2010@gmail.com](mailto:peace.peace2010@gmail.com).

### The activities

We have both regular and special events available for non-Japanese **free of charge** to help them gain a better appreciation of Japanese cultures and customs.

The regular events are **Japan Culture Day** featuring the demonstration and performance of Japanese cultures and **Sightseeing Tour in Ueno Park** guided by PEACE volunteer members.

The special events are **Cherry Blossom-Viewing Picnic**, **Sanja Festival in Asakusa** and **Japan Culture Day at Tanabata Festival**.

# The LLL SIG Newsletter

In order to help Japanese people gain a better appreciation of foreign cultures and customs, we have such a program as **Country Presentation**. We are actively looking for non-Japanese who would like to introduce their countries to Japanese people. Travel expenses inside Tokyo and complimentary dinner after the presentation will be covered by us.

If you are interested in any of the PEACE events, please make a reservation by contacting via email at [peace.peace2010@gmail.com](mailto:peace.peace2010@gmail.com) or filling out the application form at <http://form1.fc2.com/form/?id=521504>.
