

How Many Languages You Know...

Mariana Oana Senda

University of Exeter

MA Ed and Educational Leadership

As many languages you know,
As many times you are a man.
Each language is a nation's soul,
its culture and beliefs tandem.

To know the language means today
to know how people live and think.

For me it is the proper way
to make a friendly global link.

What is the greatest gift for me
is being part of different worlds.

And I am proud I can be
a part of culture not just words.

Italian warmth and fiery temper,
romantic spirit of French nun
and love that met me for perpetuum
in country of a rising sun.

Davinci's mystery and Mays
with cherry blossoms in my heart
turned to so many peaceful days
but lovely parents far apart.

As many languages you speak,
As many times you are a human.
It is the way not to be weak,
Its way to demonstrate your blooming.
